

## Daily Stand Up(08/28)

### • What did you do yesterday?

**Darian:** Worked on the registration UI

**Matthew:** Fixed login and register so it requires a password

**Allen:** Worked on posting a listing

**Justin:** Created the header for the main home page.

**Max:** Fixed issues with node

### • What will you do today?

**Darian:** I will try to work on the categories bar.

**Matthew:** connect register backend to frontend

**Allen:** I will work on posting a listing

**Justin:** I will create a way to create a new product listing and display the listings in our front and back end.

**Max:** I will work on the Login UI.

### • What is blocking your progress?

**Darian:** I was researching CSS flexboxes.

**Matthew:** Waiting for login/register frontend to be finished

**Allen:** Researching ways to connect item created in frontend to backend

**Justin:** Researching on how to upload pictures and big forms of text into S3 buckets in AWS and have the S3 bucket load information into DynamoDB.

**Max:** I was resolving outdated version issues and watching CSS tutorials.
