

Daily Stand Up(09/18)

• What did you do yesterday?

Darian: Created a 404 page and updated the routing

Matthew: Profile backend returns a full profile

Allen: Started a listing page

Justin: Have a way to upload an image on the front end and send it to our back end in create a listing

Max: Work on the Profile Page

• What will you do today?

Darian: Fix the routing after refactor merge

Matthew: Edit profile backend

Allen: Created the template files for a listing page

Justin: finished a massive merge into main and refactored many of our components.

Max: Continuing work on the profile page

• What is blocking your progress?

Darian: Not much

Matthew: Frontend doesnt exist for profile

Allen: Haveto research how front end connects to each other

Justin: Look how to use the S3 bucket and send it into DynamoDB and connect it to our front end.

Max: Need to research profile page URL routing.
